DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/03/2006 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3-5 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Kagerer et al., for reasons cited in previous actions.

Response to Arguments

4. Applicant's arguments filed 02/03/2006 have been fully considered but they are not persuasive.

Art Unit: 1713

5. Regarding the argument that the thiol groups required by Kagerer et al. are excluded by the subject claims, it is noted that, prior to adding the thiols to the reaction, the polyisocyanates are reacted with polyols not containing any thiol groups. The additional step of adding a thiol reactant to the intermediate polyurethane, in order to further grow the polyurethane prior to grafting, is not excluded by the present claims.

Thus the rejections are maintained.
